### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alan D. Kamrath on July 22, 2004.

The application has been amended as follows:

In line 1 of the abstract change "comprises" to --including--.

In claim 1 line 2, change "the center" to --a center--. In line 3, change "the front side" to --a front side--. In line 6, change "the back side" to --a back side--. In line 7, change "the surface" to --a surface--. In line 12, change "the bottom" to --a bottom--. In line 13, change "the top" to --a top--; and delete "the" prior to "two". In line 14, insert --each-- after "unit". In line 16, change "the depth" to --a depth--; and change "the one" to --a depth--. In line 21, change "the other" to --another--. In line 22, change "the bottom" to --a bottom--. In line 23, change "the original" to --an original--. In line 25, change "the center" to --a center--. In line 26, delete "the" prior to "two sides". In line 28, change "the top" to --a top--. In line 29, change "the end surface" to --an end surface--. In line 30, change "the end surface" to --an end surface--. In line 31, delete "whole";

and add --completely entering-- after "from". In line 33, delete "thus, the socket structure is composed of above described components".

In claim 2 line 2, change "can be" to --is--. In line 5, delete "the" prior to "fluid".

In claim 3 line 4, change "can be" to --are--.

In claim 4 line 1, delete "the" prior to "two sides". In line 2, change "the end" to --an end--. In line 4, delete "the" prior "two sides". In line 6, delete "surface".

In claim 5 line 1, change "the joint" to --a joint--.

In claim 6 line 1, change "the back" to --a back--.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: In Figures 3A, 3B, 5A and 5B, insulating members shown in cross section should be properly crosshatched. It is brought to applicant's attention that the conventional crosshatch for insulating members shown in cross section consist of lines of two different thicknesses alternatively disposed.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or suggest a socket structure with a pressing unit with two side each comprising first and second recesses with different depths, and a cover having pillar corresponding to pillars on the housing to form holes to accommodate the balls, in combination with the remaining limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Felix O. Figueroa whose telephone number is (571) 272-2003. The examiner can normally be reached on Mon.-Fri., 10:00am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paula A. Bradley can be reached on (571) 272-2800 Ext. 33. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
